Celebrate Mothers & Arts with Arborland

*Thank you for being my greatest
inspiration and cheerleader, mom!*

I love you!

Mother's Day Breakfast

Happy Mother's Day!

Our elementary students spent their morning enjoying breakfast with their mothers in the park. We love and appreciate all of our mothers, we cannot thank you enough for all that you do! You can view the full photo album on [Facebook.com/ArborlandMontessori](https://www.facebook.com/ArborlandMontessori)

Montessori Spotlight

"Music can touch us in a way that nothing else can."

-Dr. Maria Montessori

Montessori children have the freedom to explore music in the classroom. Music exploration allows children to express themselves, find a rhythm, and learn how to keep a beat. Click below to check out how Kindergartener Juliana plays music in her classroom!

Art in the Montessori Classroom

Visual Arts: Curriculum Art

Art is an essential part of our school curriculum. Students begin to see the world in a new way when they express themselves through art. Our students are given a variety of mediums to create their masterpieces. Weekly in-class art lessons are available for our elementary students. Watch as Arborland elementary students and their instructor, Ms. Wang, showcase their artwork and learning during a unique COVID year!

Culinary Arts: Junior High Cooking Class

Culinary Arts is offered to our junior high students as an elective option. Students learn how to cook delicious and nutritious meals, while also learning proper safety and sanitation. Culinary arts prepares students for their future by teaching them how to run a safe and efficient kitchen.

Chicken nuggets coming right up! Nicholas is wearing all of the required safety gear.

Our remote students cook from home! Where are the chips? That salsa looks delicious!

Theater

Arborland provided students with the amazing opportunity to learn how to do voice acting and voice the English dubbed version of *"The Old Man and Two Mountains."* This ancient tale of courage and perseverance has been remastered for modern audiences and is sure to delight and surprise all along the way. The cast has begun recording at a professional studio. Check out these pictures for a behind-the-scenes preview of a few of our talented voice actors!

Jolie (10) is the voice of Wendy, a mountain elf.

Brianna (11) is the voice of a villager.

The production team makes sure each take sounds good!

Ms. Monessa, our theater teacher, supports Brianna as she records.

Dance

Dance is one way that children can express themselves through movement. Ballet, tap, jazz, and hip hop all tell a different story and are different in technique. Click on the video to learn why our ballerinas love to dance!

[Watch Here](#)

Gymnastics

Balance, agility, flexibility and core strength! The gymnasts have a blast on their new tumbling track and take their straddle jumps to the next level!

Music

Did you know that music uses both the left side (logic) and right side (creativity) of the brain? The ability to produce and respond to music is attributed to the right side of the brain, but processing such musical elements as pitch, tempo, and melody uses the left side. Music education creates a well-rounded student. Click the video to watch our music students in action!

Blog

What Is Special About Montessori Kindergarten, 3rd Grade, and 6th Grade?

Children who complete the full Montessori cycle of primary and elementary education emerge as well-adjusted individuals, socially, academically, and most importantly as natural leaders. Read our blog to find out why the three year cycle is important for your child's development.

Your child's teacher will send out their dress code information.
Please mark your calendar and join us to applaud our shining stars.

Talent Show Recap

Virtual Talent Show with Children? Whoever thought it would be possible prior to COVID?

Watch Arborland Montessori's 1st-3rd grade students show off some of their favorite talents. From piano playing to rapping to creating Lego stop motion videos, our students build self-confidence through performing for their peers. At Arborland, we believe in developing the WHOLE child and love helping them shine as the unique individuals they are!

Earth Day Celebration

***"We do not inherit the earth from our ancestors;
we borrow it from our children."***

Our toddlers got creative and celebrated by getting outdoors, going on a leaf hunt, recycling bottles and cans, and even enjoying a yummy tree-themed snack.

Room 3 made a promise to take care of the earth! This means that they will do their part and recycle, pick up trash, and plant a tree. The possibilities really are endless!
